

H'60 Class News

David S. Chapin of Chestnut Hill, MA writes:

I am retired from GYN practice. I am, however, very active in teaching activities: as leader of a third-year Harvard Medical School Tutorial, Patient-Doctor 3, concerned with the "Hidden Curriculum" professionalism: teamwork, empathy, dealing with death, etc. and as a volunteer assistant teacher at Dedham High School, in a course on Anatomy and Physiology. Very happy and rewarded by these endeavors.
